INTERNAL I/O	<ul style="list-style-type: none"> • 1 x Printer Header • 1 x USB 2.0 Header • 2 x SATA2 3Gb/s Connector • 1 x Front Audio Header • 1 x Front Panel Header • 2 x System FAN Header • 1 x Serial Header
DIMENSION	<ul style="list-style-type: none"> • Mini ITX Form Factor Dimension: 17cm x 17cm (W x L)
OS SUPPORT	<ul style="list-style-type: none"> • Support Windows 8 / 8.1
ACCESSORIES	<ul style="list-style-type: none"> • 2 x SATA Cable

	<ul style="list-style-type: none"> • 1 x I/O Shield • 1 x DVD Driver • 1 x Quick Guide
FEATURES	<ul style="list-style-type: none"> • Windows 8 Compatible • Supports Smart Speed LAN • Supports BIO-Remote2 • Supports Solid capacitor • Supports BIOS-Flasher • Supports Charger Booster • Supports BIOS Online Update

CPU-Chipset Features

Intel Celeron J1800 Dual Core processor <p>The Intel® Celeron J1800(1M Cache, up to 2.58 GHz) is a dual-core processor. Although both parts are clocked the same, at 2.41 GHz, the J1800 also incorporates Burst Technology, that can boost operating frequency up to 2.58 GHz. The maximum GPU frequency was also increased on the J1800 to 792 MHz, while the base GPU speed stayed at 688 MHz. The rest of the specs have not changed. It supports DDR3L-1333 memory and fit into 10 Watt thermal envelope.</p>

Audio+

HD Audio

Provides high quality sound with minimal loss of audio fidelity.

Video+

HDMI 3D Visual

The HDMI 3D Visual provides a level of interoperability for devices designed to deliver 3D content over the HDMI connection. The latest HDMI Specification adds key enhancements to support the market requirements for bringing broadcast 3D content into the home featuring key enhancements for 3D applications including the addition of mandatory 3D formats for broadcast content.

DX11

Direct3D 11 enables Direct3D 10 APIs and Direct3D 11 APIs to use one underlying rendering device. And it allows developers to achieve a high speed, fully conformant software rasterizer.

Integrated HDMI with HDCP

Onboard HDMI connector allows full video & audio support. It has industry-leading high definition video quality.

Speed+

USB 3.0

Experience Fastest data transfers at 5 Gbps with USB 3.0--the new latest connectivity standard. Built to connect easily with next-generation components and peripherals, USB 3.0 transfers data 10X faster and backward compatible with previous USB 2.0 components.

SmartSpeedLAN

SmartSpeedLAN is a free software application which monitors and manages your PC's network behavior. With user-friendly GUI, it allows you to select and prioritize different types of network traffic, including gaming, media streaming, communications or web surfing. You can also set any specific applications, choosing to prioritize or block accordingly. SmartSpeedLAN can feature automatic management options that use adaptive networking intelligence to ensure that you are getting the best online experience possible.

Charger Booster

Charger booster is the best and efficient charger solution for apple devices such as iPad, iPhone. Basically, Charger booster Technology is able to boost the charging time to be more efficiency and faster once any apple goods connecting to our Motherboard. With charger booster technology, you are able to charge your apple devices up to 42 % faster.

Durable+

Moistureproof PCB

With the popularity of PC usage and working environment has getting deteriorating and moist(such as rural, coastal). The PCB will be oxidizing easily by damp or absorbed moisture. And then ionic migration or CAF(Conductive Anodic Filament) will be generated. Moisture-proof PCB meets high density and high reliability requirements for moisture

proofing. 	
Low RdsOn P-Pak MOS Low resistance design can significantly reduce the current out of the energy loss. Low temperature, small size, excellent thermal conductivity. 	
X.D.C (eXtreme Durable Capacitors) Biostar adopts low ESR and high ripple conductive solid state caps that provide sufficient, stable power supply to the CPU. The life span can also be more than 6.25 x of ordinary liquid caps.	

Protection+

ESD Protection ESD (Electrostatic Discharge) is the major factor to destroy PC by electrical overstress(EOS) condition, ESD occurred by PC users when touch any devices connect to PC, which may result in damage to motherboard or parts .ESD protection is designed to protect the motherboard and equipment from damage by EOS Without ESD Protection With ESD Protection 	
--	---

BIOS Virus Protection

When enabled, the BIOS will protect the boot sector and partition table by halting the system and flashing a warning message whether there's an attempt to write to these areas.

**BIOS Virus
Protection**

OC / OV / OH Protection

All BIOSTAR special circuit design detects overvoltage conditions and prevents voltage surges from spreading in real time. It also actively cuts off the overvoltage supply to protect your system. Over current protection, avoid motherboard from damage when doing overclock or an unusual current import. Over heat protection, avoid motherboard & CPU from burning when exceeding the temperature limitation.

BullGuard Internet Security (90 days FREE trial)

BullGuard Internet Security comes with the broadest line-up of internet security features on the market, including: a cutting-edge dual Antivirus engine, Online Backup for your precious files, PC Tune Up to speed up your system, a Game Mode for a seamless gaming experience, Parental Control, Firewall, Safe Browsing and many more. Make the most of your digital life with Bullguard!

DIY+

<p>UEFI BIOS</p> <p>Unified Extensible Firmware Interface (UEFI) is a brand new framework that provides a revolutionary interface. It is a modern clear and easy-to-use graphical user interface. The UEFI comes with a colorful easy-understand icons leads users into the setup layer directly.</p>	
<p>BIO-Remote 2</p> <p>BIO-Remote2 Technology is featuring users a better Home Theater environment. Users who own either Android mobile or Apple goods are able to access and control your PC remotely; At this moment, you're smart device became a intelligent and functional remote controller; more than that, BIO-Remote2 also includes both function of mouse pad and power point presentation mode.</p>	
<p>Header Zone</p> <p>Users can easily assemble their own computer, a simple-swap data discs and other accessories.</p> 	
<p>Exclusive offer!</p> <p>As an Biostar customer you can download MAGIX multimedia tools designed to enhance your music, videos and photos for free. From music and website creation to video editing and photo management. Four products that cover all of your multimedia needs. Simply do more with your media than you ever thought possible.</p>	<p>MX SUITE THE ALL-IN-ONE MEDIA SOLUTION</p> 

What is simpliecheck ?

simpliecheck is a small, intelligent tool by simplitec GmbH that scans your PC for optimal performance. Is poor configuration slowing your PC down? Are there errors that reduce system stability? Is your privacy protected? simpliecheck is based on well-proven scanning technology that has proven successful in everyday customer use. simplitec GmbH benefits from 18 year of experience system software development.

BIO-Flasher

Update BIOS effortlessly from a USB flash disk before entering the OS. BIO-Flasher is a convenient BIOS update tool. Just launch this tool and put the BIOS on USB pen driver before entering the OS. You can update your BIOS with only a few clicks without preparing an additional floppy disk or other complicated flash utility.

eHot-Line Utilitiy

Integrated e-service automatically sends your technical support request to Biostar Globe tech support without any delay.

BIOScreen Utility

Personalize your desktop with customizable boot logo. BIOScreen is the new feature that lets you personalize and create your own style with unique, custom-made boot logo.
